

Invikta

Solenoid driven dosing pumps

The Invikta Series is a series of micro-processor based solenoid driven dosing pumps. While Invikta may be the entry level to SEKO's range of solenoid driven dosing pumps, it still brings with it great reliability, quality construction and flexibility in the number of applications where it can work, such as: OEMs, Swimming Pools, Car Wash, Cooling Towers, Reverse Osmosis Systems and many other applications.

- Capacity range: 0.2 – 5 l/h, up to 7 bar
- Wetted parts: PVDF, PTFE, EPDM, FPM and Ceramic

As with the rest of SEKO's products Invikta, uses premium materials in its manufacture. The **pump head is optionally available in PVDF** and but the **ball valves are ceramic as standard** further enforcing the reliability of the pump and assures the chemical compatibility with all the wetted parts. SEKO's **diaphragms** are made of pure solid PTFE offering a superior life expectancy **guaranteed by SEKO for 5 years**, making routine replacement no longer necessary, making this essential pump a great entry point into the SEKO range.

External plastic enclosure is in PP which comes with **IP65 class protection** against jets of water and aggressive environments. A **low-level alarm** can be requested as an optional extra.

The range also features

- Wall mounting
