

Underbody lance ST-97.1

Optimally designed for self-service washing bays at 120 bar!

High cleaning power by 3 nozzles 1/8" M

Best accessibility: without any hydraulic lift. Perfectly clean from the bottom!

Underbody lance for self-service underbody washing

- Long underbody lance for best accessibility of the entire underside
- Smoothly running plastic castors (POM) for easily manoeuvring
- 3 nozzles 1/8" M NPT are required. A spraying angle of 25° is ideal
- Excellent cleaning effect without affecting moving parts, brakes or electric components
- Stainless steel lance covered with a soft plastic coating
- Underbody lance made out of high-quality stainless steel-brass-compound
- Suitable for working pressures of up to 180 bar
- Max. 120 bar in case of use at self-service washing bays
- Max. 40 l/min. 100 °C

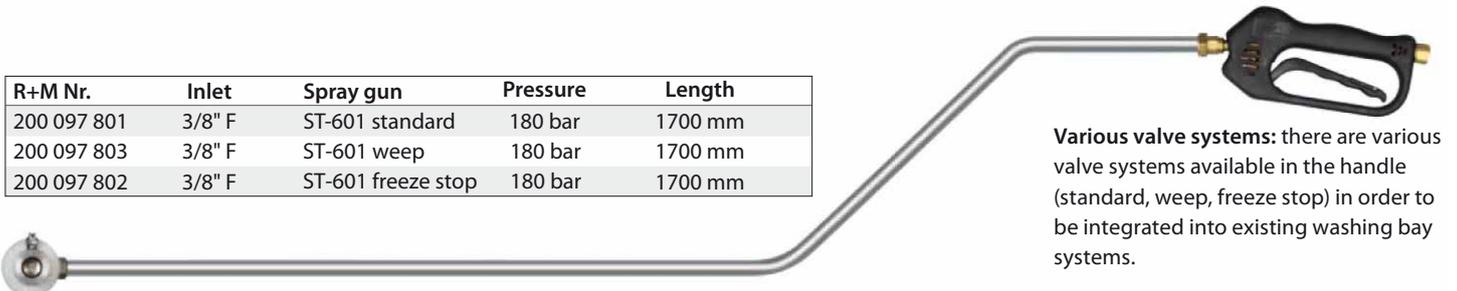

At the top: smoothly running by POM-plastic castors, diameter of 60 mm.

On the axis: flat spray nozzles fulfilling your versatile requirements.

R+M Nr.	Inlet	Spray gun	Pressure	Length
200 097 801	3/8" F	ST-601 standard	180 bar	1700 mm
200 097 803	3/8" F	ST-601 weep	180 bar	1700 mm
200 097 802	3/8" F	ST-601 freeze stop	180 bar	1700 mm

Various valve systems: there are various valve systems available in the handle (standard, weep, freeze stop) in order to be integrated into existing washing bay systems.
